

We have implemented direct **integration** with simPRO and this is available to all customers who currently access eBranch (simPRO uses eBranch credentials to authenticate Lawrence & Hanson customers).

If you don't have access to eBranch you can register [here](#)

This INTEGRATION means:

1. SIMPRO AUTOMATICALLY IMPORTS Lawrence & Hanson
 - Invoices
 - Price-Files

2. WE AUTOMATICALLY SEND
 - Invoices to the customer's account in simPRO - these are done several times daily
 - Price-Files to the customer's account in simPRO - these are done periodically but no less than once per month

So, you ***don't need to do any of that retrieval and importing manually.***

Below are the instructions you will need to send to your customer to set up this automated import:

Price File
