## New 2019/20 Price List Catalogue and Price Adjustment

Dear Valued Customer,

On the 1st September 2019, we are pleased to announce that the latest revision of the digital NHP Price List Catalogue will be available showcasing an expanded range of products, services and solutions. With an improved easy to read layout and enhanced product selection and technical content, this valuable resource will be freely available in digital and interactive formats.

In parallel with the release of the new NHP Price List Catalogue, we will be implementing a weighted list price adjustment across our product portfolio. This is in line with an ever increasing competitive market environment and the necessity to maintain our quality product and service promise - a promise that we are proud to have delivered to our local markets for over 50 years.

NHP continues to invest in improving accessibility to online product information and ordering portal accessed from our [corporate website](#). With the ability to place orders online and free delivery, NHP's online portal allows registered users to check price and availability of the extensive NHP product portfolio, create and review open quotes, plus access in-depth technical information.

On behalf of the NHP team, we greatly appreciate your continued business and support. Should you require further details regarding any of the above, please contact your local NHP sales person.

Best Regards,

**Mark Pattison**  
*Sales Director*
