KEEPING YOU CONNECTED

Lawrence & Hanson
A Sonepar Company

Reimagine living with a Clipsal Wiser™ Smart Home.

Clipsal Wiser™ offers you more comfort, energy efficiency and peace of mind.

Imagine a smart home that puts you in control. From blinds that open to greet the sun, aircon that comes on before the day's heat, and lights that dim as you drift off, a Wiser Smart Home adjusts to your lifestyle.

Wiser is a scalable, automated smart home solution that lets you control almost everything in your home with a single app. It's easy to install and set up, and can grow as your needs change.

Imagine a smart home that's flexible to your lifestyle. With a Clipsal Wiser™ Smart Home solution, your smartphone can become your dashboard for customising and controlling your home.

You can do almost everything from operating the blinds to changing the lighting remotely with the Wiser by SE app or locally via your voice assistant device, or simply from your existing light switches.

Imagine all this brought to you by Clipsal. With Clipsal, you can rest easy knowing that as your requirements grow, your Wiser Smart Home solution can grow with you.

With more than 25 years of experience in local smart home innovation, and supported globally by Schneider Electric to help keep everything secure; you can feel reassured that you're making a solid investment.

CLP501902

WISER HUB

- The Wiser Hub is the Wiser system communication interface, enabling you to easily manage your home environment
- Connects Wiser devices and enables communication between one or more devices and a smartphone via the Wiser by SE app
- The hub also allows you to control your home from a remote location
- Monitors and controls Wiser Zigbee devices through the Wiser by SE app, Ethernet or WiFi®
- Through the Wiser by SE app, you can create Moments or Automations to operate Wiser Zigbee devices and Iconic connected devices in Zigbee mode

STAND FOR WISER HUB

- The Wiser Hub Table Stand is an optional stand for placing the Wiser Hub on a table or other flat surface

CLP5019020001

WISER SMOKE ALARM (240V SQUARE)

- The Wiser Smoke Alarm 240 V Square combines a photoelectric smoke alarm with smart home functions
- Interconnecting with existing wireless Fire Tek® smoke alarms via RF, the Wiser smoke alarms can be used separately or as part of a Wiser Smart Home System
- The Wiser by SE app provides push notification alerts if smoke is detected, and automations can also be programmed to turn lights ON or flash to help provide a warning if smoke is detected
- The dual spectrum smoke sensing technology helps to mitigate false alarms for added confidence

CLP599WSA

CLP599WSAL

WISER SMOKE ALARM (LITHIUM BATTERY)

- The Wiser Smoke Alarm - Battery combines a photoelectric smoke alarm with smart home functions
- Interconnecting with existing wireless Fire Tek® smoke alarms via RF, the Wiser battery powered alarms can be used separately or as part of a Wiser Smart Home System
- The Wiser by SE app provides push notification alerts if smoke is detected, and automations can also be programmed to turn lights ON or flash to help provide a warning if smoke is detected
- The dual spectrum smoke sensing technology helps to mitigate false alarms for added confidence

WISER MOTION SENSOR

- The Wiser Motion Sensor detects movement and measures luminance in a room, reporting the status to the Wiser Hub
- It controls Wiser devices to configure the room for a desired effect

CLP595011

CLIPSAL

Wiser by Clipsal goes beyond smartening up a home; it enhances convenience and energy efficiency with a scalable solution for elevated comfort and control.

Wiser direct-to-customer support enables self-installation, facilitated by a customer support page on Clipsal.com/ wiser offering resources like 'how-to videos', system insights, installation and technical guides and FAQs.

Wiser puts control at users' fingertips, whether through the Wiser by SE app, voice assistant, or existing light switches, adapting to homeowners' evolving needs.

Electricians have in depth support provided through our Level 1 and Level 2 Technical Support in our Customer Care team and our technical representatives in the field.

CLP591011

WISER WINDOW/DOOR CONTACT

- The Wiser Window/Door Sensor detects opened and closed windows and doors and reports the status to the Wiser Hub
- It consists of two separate parts: a sensor and a magnet
- The sensor includes a circuit which detects the magnet when it is in close proximity
- When the sensor is connected to the Wiser Hub and the window/door is opened or closed, the sensor reports the change to the Wiser Hub

CLP501401

WISER IR CONVERTER

- The Wiser IR Converter controls TVs, split air conditioners and HiFi systems via the Wiser by SE app using infrared (IR) technology
- It can be mounted on the ceiling or placed on a table top
- The device can be powered via either the Micro USB port (5 V DC up to 1 A), or 4 × AA Alkaline batteries
- The Wiser IR Converter includes 3 IR ports to connect extendable IR emitter cables
- The device also has an upgradeable IR database

CLP593011

WISER TEMPERATURE/ HUMIDITY SENSOR

- The Wiser Temperature/ Humidity Sensor helps to maintain a comfortable environment in the home by detecting changes in temperature and humidity and reporting climate data to the Wiser Hub

CLP592011

WISER WATER LEAKAGE SENSOR

- The Wiser Water Leakage Sensor detects the presence of water and alerts via an alarm and/or notification
- When the sensor is connected to the Wiser Hub and detects water on the floor, it sends out a sound alarm and reports the event to the Wiser Hub
- Householders with the Wiser by SE app installed on their smartphones can receive a push notification

3025CSGZ

ICONIC CONNECTED TWIN SOCKET, 10A ZIGBEE

- The Iconic Connected Socket provides app controlled switching of plug-in appliances using the Wiser by SE app
- When connected to the Wiser Hub, the socket can be integrated into Moments and Automations or simply be operated with a timed or time-scheduled output
- When the manual switch on the socket is in the Smart position, the socket can be controlled remotely

3025CSC-VW

ICONIC SKIN, CONNECTED TWIN SOCKET, VW

- 1 Vivid White skin for 3025CSGZ

PIXIE helps new home builders and renovators transform their houses to smart homes simply and cost effectively by taking control of energy costs and future-proofing their homes without changing the wiring.

With **PIXIE**, your Australian home can become smarter effortlessly. Experience the freedom to customise room by room and seamlessly integrate into just about any wall plate design for a comprehensive solution that enhances your home's intelligence.

SMS862WF/WH/BTAM

PIXIE SMART PIR SENSOR OUTDOOR WALL MOUNT

- 240V powered, 3 wire sensors with PIXIE Smarts on board
- Easily replace older dumb sensors to access smart controls and scheduling
- 4 operating modes - Auto, Override On, Override Off, Photocell Mode
- Setup using App or dials on-board the sensor

SMC3BTAS

PIXIE MULTIFUNCTION REMOTE BUTTON

- Battery powered. Can be installed anywhere in the house without worrying about wiring availability
- Designed to pair with a PIXIE master device to achieve multi-way control and can be programmed to control a group or up to 2 scenes

PIXIE GATE & DOOR CONTROL

- Control most garage doors and gates in Australia today
- Provides open/close status
- Status notifications to mobile device when status changes
- Complete log of all operations available for security purposes
- Users are provided visual feedback demonstrating the current status, and in some instances, position of the controlled appliance

PC206GD-R-BTAM

STS600BTAM

PIXIE GATEWAY

- Provides out of home control and voice control capabilities to any PIXIE smart home system
- Works with Apple Watch, SONOS, Spotify, Mitsubishi Electric, DaHua, IFTTT, Samsung Smartthings, Google Home, Amazon Alexa, SIRI shortcuts
- No need to be an I.T expert with simple plug and play setup for advanced smart home functions
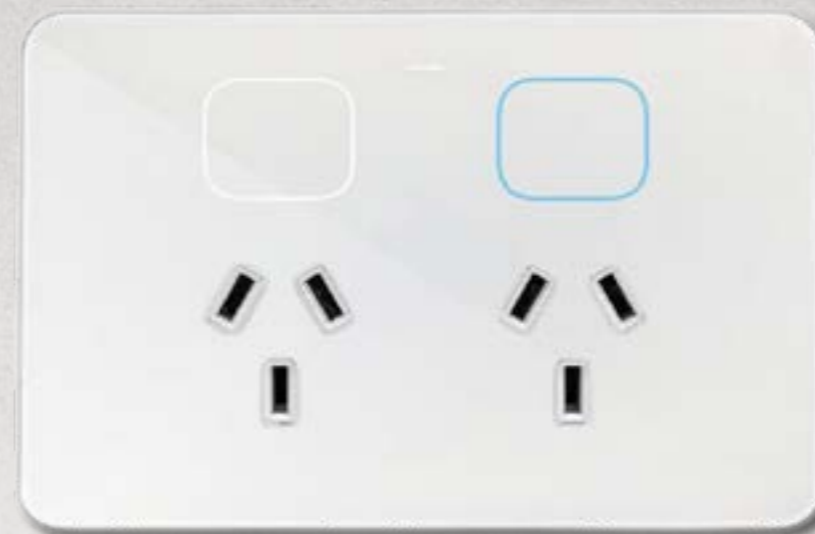

SGW3BTAM

PIXIE SMART TIMER SWITCH

- Simple 2 wire installation - no neutral needed
- Create run on timers from 1min to 24hours
- Create 24 hour 7 days schedules
- Ideal for bathroom exhaust fans, heated towel rails, walk in robes
- Fits into most wall plates in Australia today

SECURITY IN THE PALM OF YOUR HAND

Weaving a Web of Watchful Eyes: Your Secure Home with Mercator Ikuü.

Step into your haven, greeted by the silent sentinel - the IKUU ENTRANCE LOCK BT. No fumbling, just a fingerprint recognized, a click, and you're home. Inside, the IP65 PIR SENSOR stands guard, its watchful eye detecting any movement outside. A notification flashes on your phone, letting you know all is well.

Night falls, but darkness holds no fear. The WI-FI BULLET CAMERA awakens, its infrared vision piercing the shadows. Should someone approach, the floodlight kicks in with a burst of brightness, courtesy of the 20W SMART LED FLOODLIGHT. The camera captures all, its rolling storage ensuring no suspicious activity goes unseen.

From entry points to outdoor spaces, each Mercator IKUU device plays its part, weaving a web of watchful eyes. Whether you're away or asleep, their vigilance brings peace of mind.

No hub required, just seamless integration. Control, customize, and monitor everything from your phone. This is your sanctuary, protected not by walls alone, but by a symphony of smart security orchestrated by Mercator IKUU. Rest assured, knowing your haven is safe, secure, and always under your watchful eye.

SSC069

WI-FI BULLET SECURITY CAMERA

- Wi-Fi (no hub required)
- Wall/ceiling mountable
- Detects motion (with notification option)
- 1-way or 2-way audio
- Infrared/Colour night vision
- 12Vdc adapter & 45m cable supplied
- Screen flip feature via the app
- Streaming available 24/7 on demand via the ap
- Rolling storage - no need to maintain SD card storage capacity

BRILLIANTSMART BLUETOOTH MESH LINKABLE

BrilliantSmart now has Bluetooth mesh linkable devices in the range.

Bluetooth mesh allows you to connect many devices using a Bluetooth mesh network which comprises of a Mesh Gateway which supports up to 64 devices at a time. Bluetooth mesh is a great solution for large scale applications when your WiFi signal is not strong enough.

• Create a mesh network for up to 64 Bluetooth mesh devices using a single WiFi connection

• Increases the amount of smart devices without having to upgrade your network

• Each mesh device provides extended connection range

• Eliminates network blackspots

• Suitable for home builds and large scale applications

• Easy to connect, group and control devices

• You can combine additional gateways to further increase the number of smart Bluetooth mesh devices on your network
